HOW IT WORKS

20% of all monthly revenue goes into the Business Reserve first.

10% of total monthly revenue is the Sales Bonus — paid to whoever sold more that month. This comes out of the Business Reserve.

80% of total monthly revenue is split evenly — 40% each.

25% of each person's earnings goes into their own personal tax savings account.

EXAMPLE — $10,000 MONTH

Step 1 — Split the Revenue

	Amount	Notes
Total Revenue	$10,000	
Business Reserve (20%)	$2,000	Held in business account
Split Pool (80%)	**$8,000**	**Divided between partners**

Step 2 — Sales Bonus (from the Reserve)

	Amount	Notes
Sales Bonus (10% of $10,000)	**$1,000**	**Goes to whoever sold more**
Remaining in Business Reserve	$1,000	Stays in business account

Step 3 — Take Home Pay

	David (won bonus)	Partner
Base Pay (40% each)	$4,000	$4,000
Sales Bonus	+ $1,000	—
Gross Earnings	$5,000	$4,000
Tax Savings (25%)	– $1,250	– $1,000
Take Home	**$3,750**	**$3,000**

Where Every Dollar Went

Business Reserve	$1,000
David	$5,000
Partner	$4,000
Total	**$10,000**

Paid once at end of each month. Tax savings are each person's individual responsibility. Florida has no state income tax — 25% covers federal income + self-employment tax with a small buffer.
