How Performance Pricing Works

Step	What happens	Amount
1	Customer contacts you through the AI (chat or phone)	—
2	Job is completed and you collect payment	—
3	You report the job revenue to LeadSavior.ai	—
4	LeadSavior.ai invoices 20% of that job's revenue	20% of job

Only first-time customers count. Returning customers booked outside the AI are excluded.
